

# Tualatin Warehouse locations

If you decide that you need a lunch break- I've heard that Ancestry Brewing is a great spot for lunch- pub fare style; they are located right in the middle of the warehouses.

We haven't been there, though. We found out about them just before the shutdown :0/

On to the good stuff...

Daltile and Elemar have the best selection for granite

Daltile Portland Stone Center — Portland

20600 S.W. 115th Ave.

Your contact will be Kurrie- she's a sweetie and is all up to speed on your project.

2<sup>nd</sup>

Elemar

503-692-8020

19723 SW Teton Ave

They are open without appointment.

It's more of a self-serve model than Daltile is, but they have a great selection and everyone there is really nice.

Cosentino and MSI have a fairly limited supply of granite- they are both focused more on Quartz, but they're still good places to try.

MSI

503-454-1500

12220 SW Cimino St UNIT 104

Limited selection of granite, but they have some **\*\*spectacular\*\*** colors.

It is the only warehouse that does not keep their inventory online

Cosentino 503-486-6281

9am-3:30 pm M-F

Closed weekends

Robert or Dillon will show you around

20900 SW 115th Ave #100

This one is right next to Daltile

An appointment is necessary, but you should be able get in if you call ahead by a few minutes

They stock our Sensa granite with a 15 year sealant, but the color choices are pretty limited.

Their focus is more on Silestone Quartz than natural stone
